Sanat Kumara the Christ, is known by many in the East and West as “The Buddha Maitreya” or by his honorific Tibetan title, His Holiness Jetsun Gyalwa Jampa Gonpo.

He has been enthroned and given many ceremonies of recognition in every lineage of Tibetan Buddhism as well as other Buddhist lineages such as the Nepali Sakya lineage.

He is the incarnated Living Buddha Maitreya, the Medicine Buddha and was born in Oregon in the year 1951.

“Buddha Maitreya” is Native American and married to Mandarava Tara, the incarnation of the female bodhisattva tara, his wife and compliment of many years and life-times.

“Maitreya” comes from the sanskrit word “Maitri” meaning unattached and unconditional loving kindness.

Buddha Maitreya is the reincarnation of God on Earth known as the Planetary Logos, who has many previous auspicious lives and incarnations that include Krishna, Gautama Buddha, Jesus The Christ, Babaji and several incarnations within Tibetan Buddhism -- including the Tibetan Yogi Saint Milarepa, Padmasambhava, Atisha, Je Tsong Khapa and Lama Dorje Shugden.

In the year 1994, Buddha Maitreya the Christ consolidated his work of helping exiled Tibetan Refugees when he established the first Dharma Center in Kathmandu, Nepal.

In the West, Buddha Maitreya the Christ teaches the practice of simple meditation and how to develop soulful qualities through leading a life of harmlessness and discerning that which is harmful, deluded and lacking service so that humanity may evolve under the Law of Love and Plan of God.

Buddha Maitreya gives regular Darshan Teachings as well as weekly “OM Pyramid Meditations” from the central teaching pyramid at the Monastery that are available to attend live online or in person and help establish and support a person in their soulful evolution and spiritual development.

Since 1975, he has offered centers that focus on technologies that further the soulful qualities of meditation, self-healing, longevity and wellness.

These technologies include the use of Metatronics -- Buddha Maitreya's own Shambhala Healing Meditation Tools that include Soul
Therapy using Buddha Maitreya’s Meditation Pyramids. The tools are for personal and planetary healing.

**“Church of Shambhala”**

In the year 1996, Buddha Maitreya founded and established the Church of Shambhala Vajradhara Maitreya Sangha, a non-profit American Buddhist Church, offering the opportunity for Westerners to become monks and nuns and lead more spiritual and service orientated lives here in the West.

The Church represents both East and West and the tenets of Christianity and Buddhism, with a focus on charitable activity as one of the fundamental necessities of a spiritual life and personal and planetary healing.

**Buddha Maitreya says:**

“**The Church of Shambhala Vajradhara Maitreya Sangha Monastery is an ecological center, but the main reality of the monastery is the sacred design used in every aspect of the monastery:** the ‘phi ratio’ from the central pyramid, the pyramid being 51 degree, the 6 dome circles placed around the pyramid in a 6 pointed star, the 51 degree pyramids placed over each dome facing north, all based on the sacred human form and its relationship to sacred forms that help the soul to awaken and transform lower mind and lower emotions to become more spiritually incarnated on the physical level for both the person and for the planet, as the sacred temples built all over the world are universally connected.

“**This helps the United States in becoming healed as nation. This awakens the nations to Love and Healing to avert wars and the political support of these wars.**

“**Meditation is really one of the key things that is involved in the process of God. So our potential is beyond anybody’s wildest imagination and I am going to do everything in this life and all future lives in order to stimulate that manifestation into co-creation and allow this Earth to come under the Law of Love.**

“**The pyramid system is not designed as a machine in order to awaken you, it is actually geometrically designed in order to bring about an alignment to this planet and our spiritual abilities.**

“**Everything is locked into geometric form, to divine sound and the colors of the rays and light that comes from within.**

“**All of the soul is a manifestation of God’s grace. If your soul is awakened... you can deal with everything in life. You can deal with all hardships, suffering, pain, the dilemmas of poverty, conditions between you and your relationships and family. It allows you to forgive those who have harmed you. It allows you to heal those who are emotionally stressing you...**

“**The soul has the ability to completely transform all darkness, doubt, depression, a lack of faith. It does not require religion. It does not require a strong faith or belief system.**

“**The influence of the soul is radiated and it allows the influence of the energy of your mind to become more like the soul, your emotions to be happy, to have understanding and to relate to life in a way that allows you to evolve, grow and mature with greater qualities.**

“**It allows you to be a good human being, do good things, think good thoughts, feel good things. So, ‘soul therapy’ is in reality the Science of Redemption, the science of the redeeming negative qualities that we all have inside of...**
us and allowing those qualities to begin to grow into virtues.

"Every characteristic of a virtue is usually hard to develop ... but through SOUL THERAPY ... it is developed overnight, within the next day, within hours. A person’s mind and emotions, their feelings, their anxieties become transformed and they start to experience positive things, thoughts, emotions that are much more spiritual, much more aligned with the relationship of the higher mind of God."

"Maitreya Monastery"

In December 2006, the Church acquired 165 acres of land in Lake County, Northern California on which to establish the MAITREYA MONASTERY. This is a beautiful pristine area, set on an old volcanic mountain and overlooking Clearlake, the oldest natural lake in North America.

_Buddha Maitreya_ has designed the MONASTERY to be a powerful sacred site for planetary healing. There are six monolithic domes arranged in the sacred geometric pattern of the six-pointed star or "Shambhala Star" with a central 51 degree pyramid aligned due North.

_Buddha Maitreya_ further says:

"When we build with sacred design and we work with vibration and healing and faith, then we're actually working to heal the Soul. When we apply geomancy, such as building a temple, we are actually building a place where the ENERGY OF THE SOUL can be collected, stored, and placed into the Earth, and the Earth radiates more love, more kindness, more humanity, less war."

"The Central Pyramid"

The central pyramid of the Maitreya Monastery is built to a precise 51.85 degree angle (51°51') as found in the Great Pyramid in Egypt. This angle correlates to the principles of measurement that include the circumference of the earth, the distance between the earth and the moon and the distance between the earth and the sun, reflecting the mathematical position that the Earth has in relationship to our Solar System and the orbiting moon around it.

This specific geometric design helps to enhance the sacred energy patterns of the Earth, aligning a very sacred relationship to us as Human Beings.

_When we meditate in the Pyramid_, it aligns the reality of Earth, the energy of the vibration of Earth in all of its sacredness, its merit, its goodness, its place with God, with Masters of Wisdom and Saints who have incarnated and evolved.

Just like in a great Temple, it slowly brings out that geometric proportion and increases your Soulful receptivity, and with it the realization that God exists.
